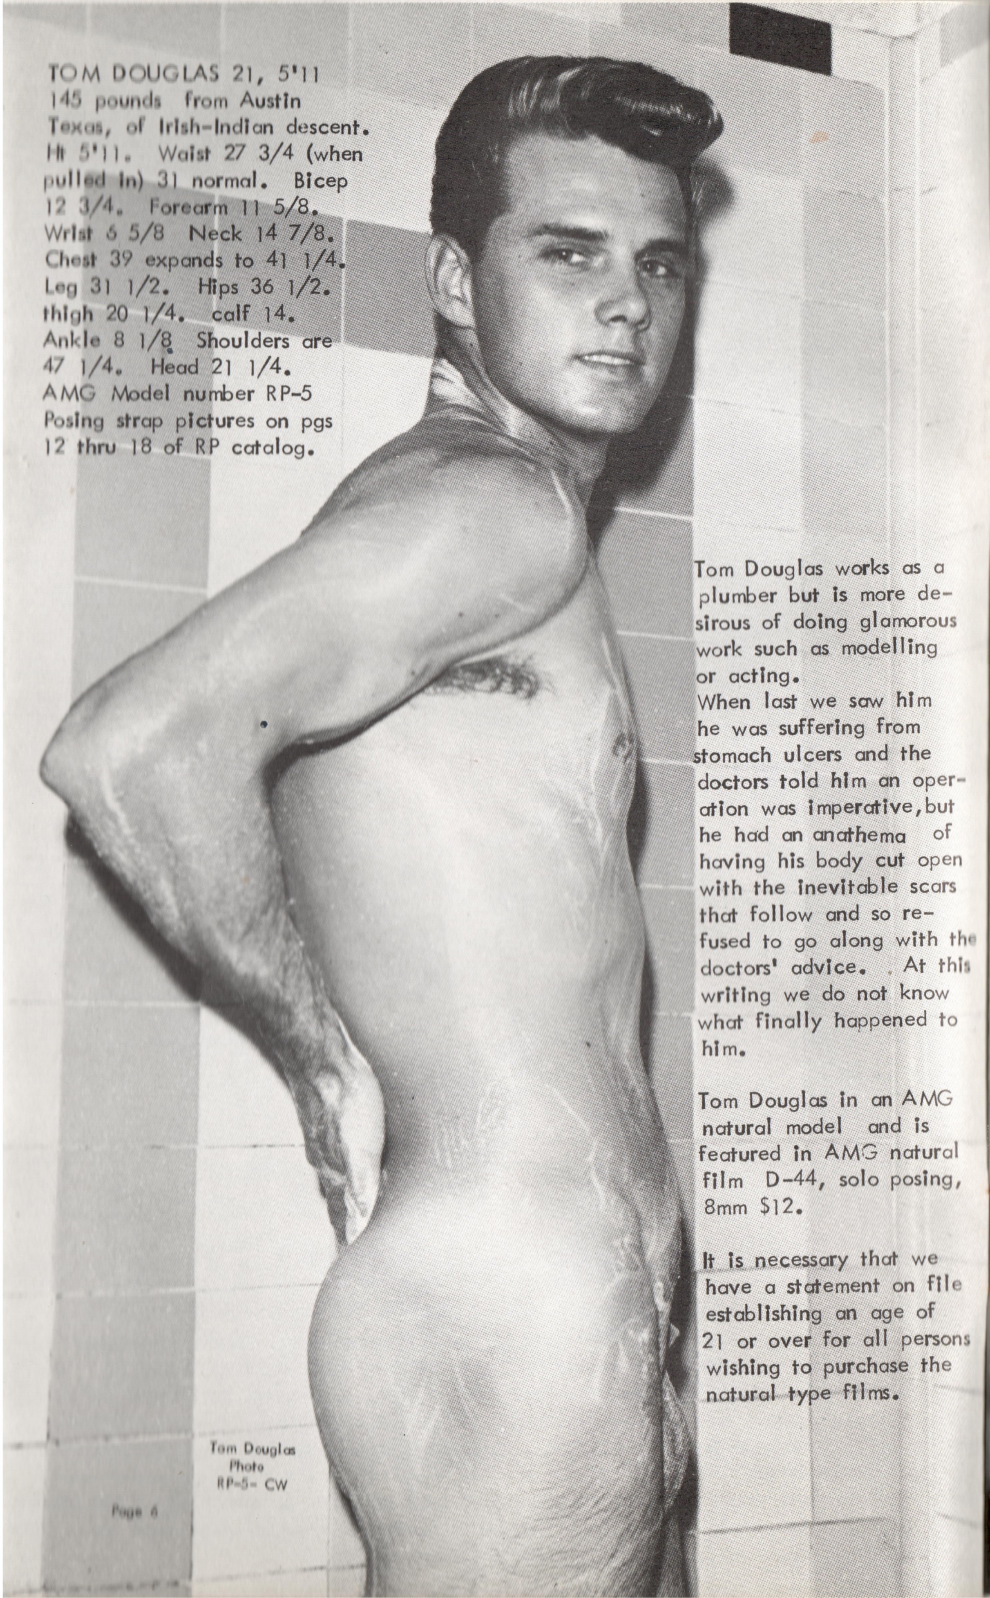
MICRO-FILM OF ALL AMG CATALOGS TO BE AVAILABLE SOON !

.....Even though AMG now offers one of the least expensive, thorough methods to review its many thousands of models by means of some 4000 catalogs which can be rented in specified full groups at only 1 cent a page, we realize that even this is a rather expensive way to view the entire collection. As yet we have not decided on which would be the more desirable, the more modestly priced 16mm size or the much larger 35mm size. Of paramount importance of course would be which viewing mechanisms would be least expensive and most desirable to customers. At this writing it would seem an adaption of 35mm projectors or strip viewers would be best. We are eager to get your reactions on this matter.



TOM DOUGLAS 21, 5'11 145 pounds from Austin Texas, of Irish-Indian descent. Ht 5'11. Waist 27 3/4 (when pulled in) 31 normal. Bicep 12 3/4. Forearm 11 5/8. Wrist 6 5/8 Neck 14 7/8. Chest 39 expands to 41 1/4. Leg 31 1/2. Hips 36 1/2. thigh 20 1/4. calf 14. Ankle 8 1/8 Shoulders are 47 1/4. Head 21 1/4. AMG Model number RP-5 Posing strap pictures on pgs 12 thru 18 of RP catalog.

Tom Douglas works as a plumber but is more desirous of doing glamorous work such as modelling or acting.
When last we saw him he was suffering from stomach ulcers and the doctors told him an operation was imperative, but he had an anathema of having his body cut open with the inevitable scars that follow and so refused to go along with the doctors' advice. At this writing we do not know what finally happened to him.

Tom Douglas in an AMG natural model and is featured in AMG natural film D-44, solo posing, 8mm $12.

It is necessary that we have a statement on file establishing an age of 21 or over for all persons wishing to purchase the natural type films.

AVAILABILITY OF NATURAL, NUDE PHOTOGRAPHY

Because of the favorable decision of the DSI case in Minneapolis, and of similar successful cases in other federal courts, our attorneys have advised us that it is now safe both for the adult customer and the studio to ship male nudes by mail. But they point out that even now the President of the United States is encouraging legislation curbing the distribution of such material to minors.

Too, the current "liberality" is not a carte-blanche for photographers to do whatever they like. It is not a case of "anything goes", and studios and customers dealing in studies showing sexual excitement, obviously provocative attitudes can count on eventual prosecution. The apparent intent of the work will likely play a strong role in the government's evaluation of the various photographic operations.

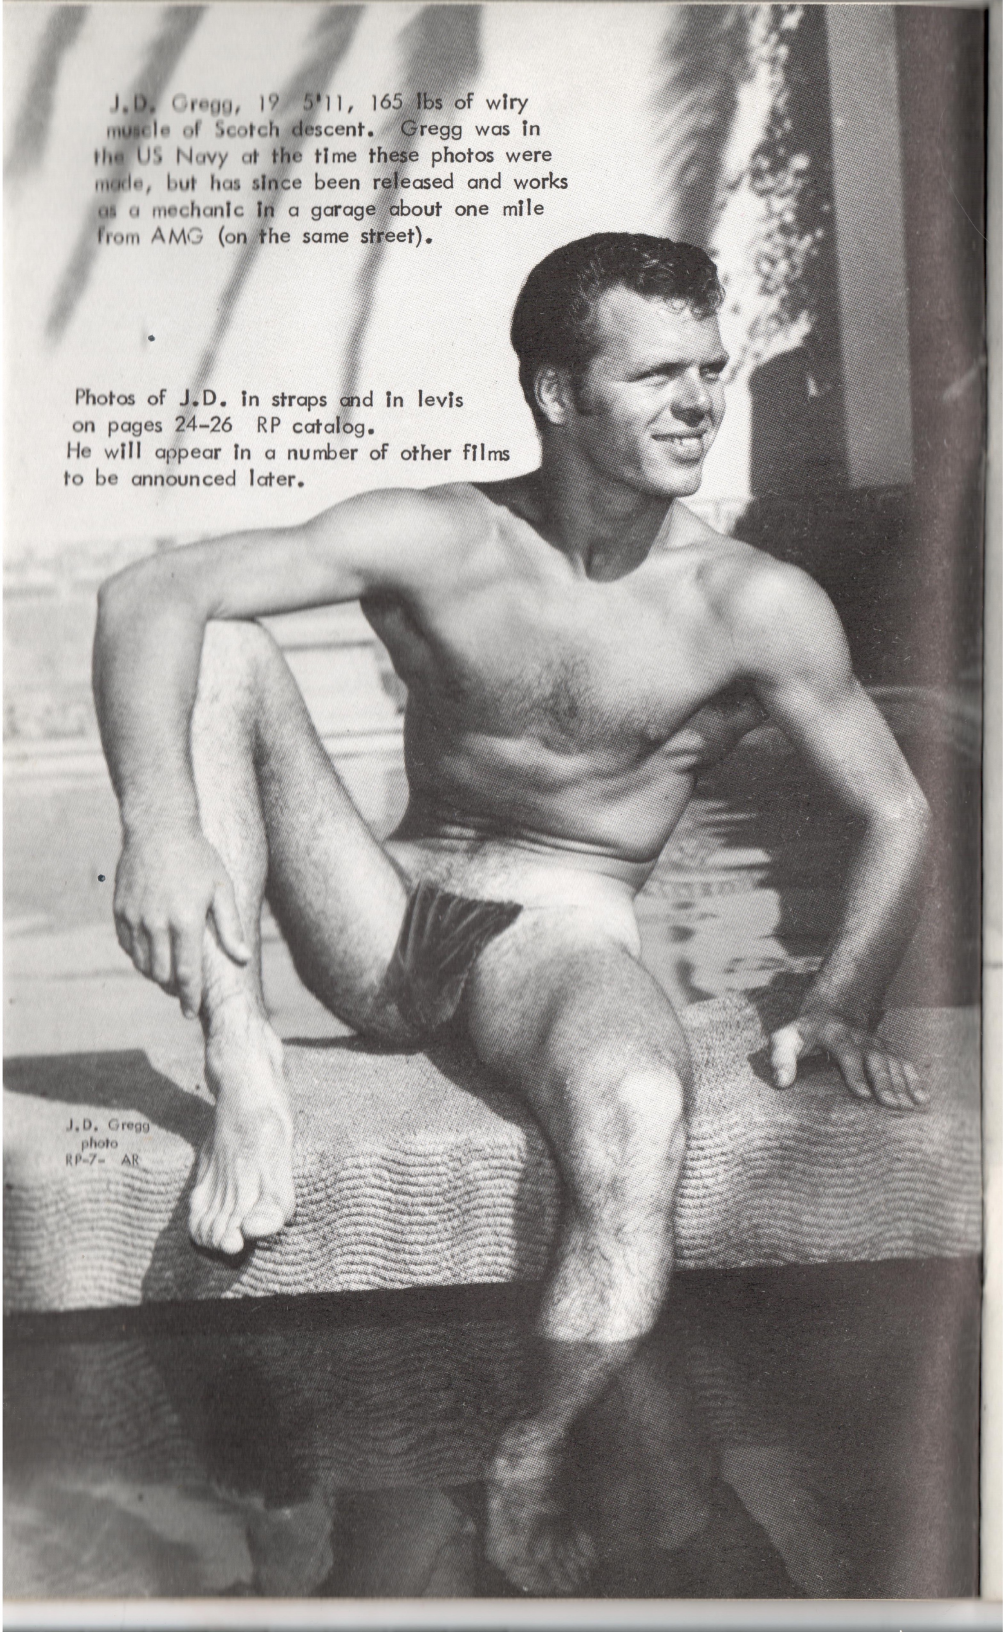
....continuation of AVAILABILITY OF NATURAL, NUDE PHOTOGRAPHY.

AMG has decided that it will make available natural, nude sets to adults (persons over 21 years) who have signed an affidavit attesting to their age. Those models on whom nude sets have been made are listed as "Natural Models". The cost of the sets of photos is $3 for a set of six 4x5 prints. No photo catalogs are available of the natural photos at this time, but they will be at a later date.

Unhappily because of local pressures many magazine distributors refuse to handle any magazine displaying nudes, so they cannot be offered in Physique Pictorial at this time, but you will find AMG natural photos in many other magazines. Details will be furnished on request; for information send self-addressed stamped envelope along with statement and/or evidence of adulthood .



J.D. Gregg, 19 5'11, 165 lbs of wiry muscle of Scotch descent. Gregg was in the US Navy at the time these photos were made, but has since been released and works as a mechanic in a garage about one mile from AMG (on the same street).

Photos of J.D. in straps and in levis on pages 24-26 RP catalog.
He will appear in a number of other films to be announced later.

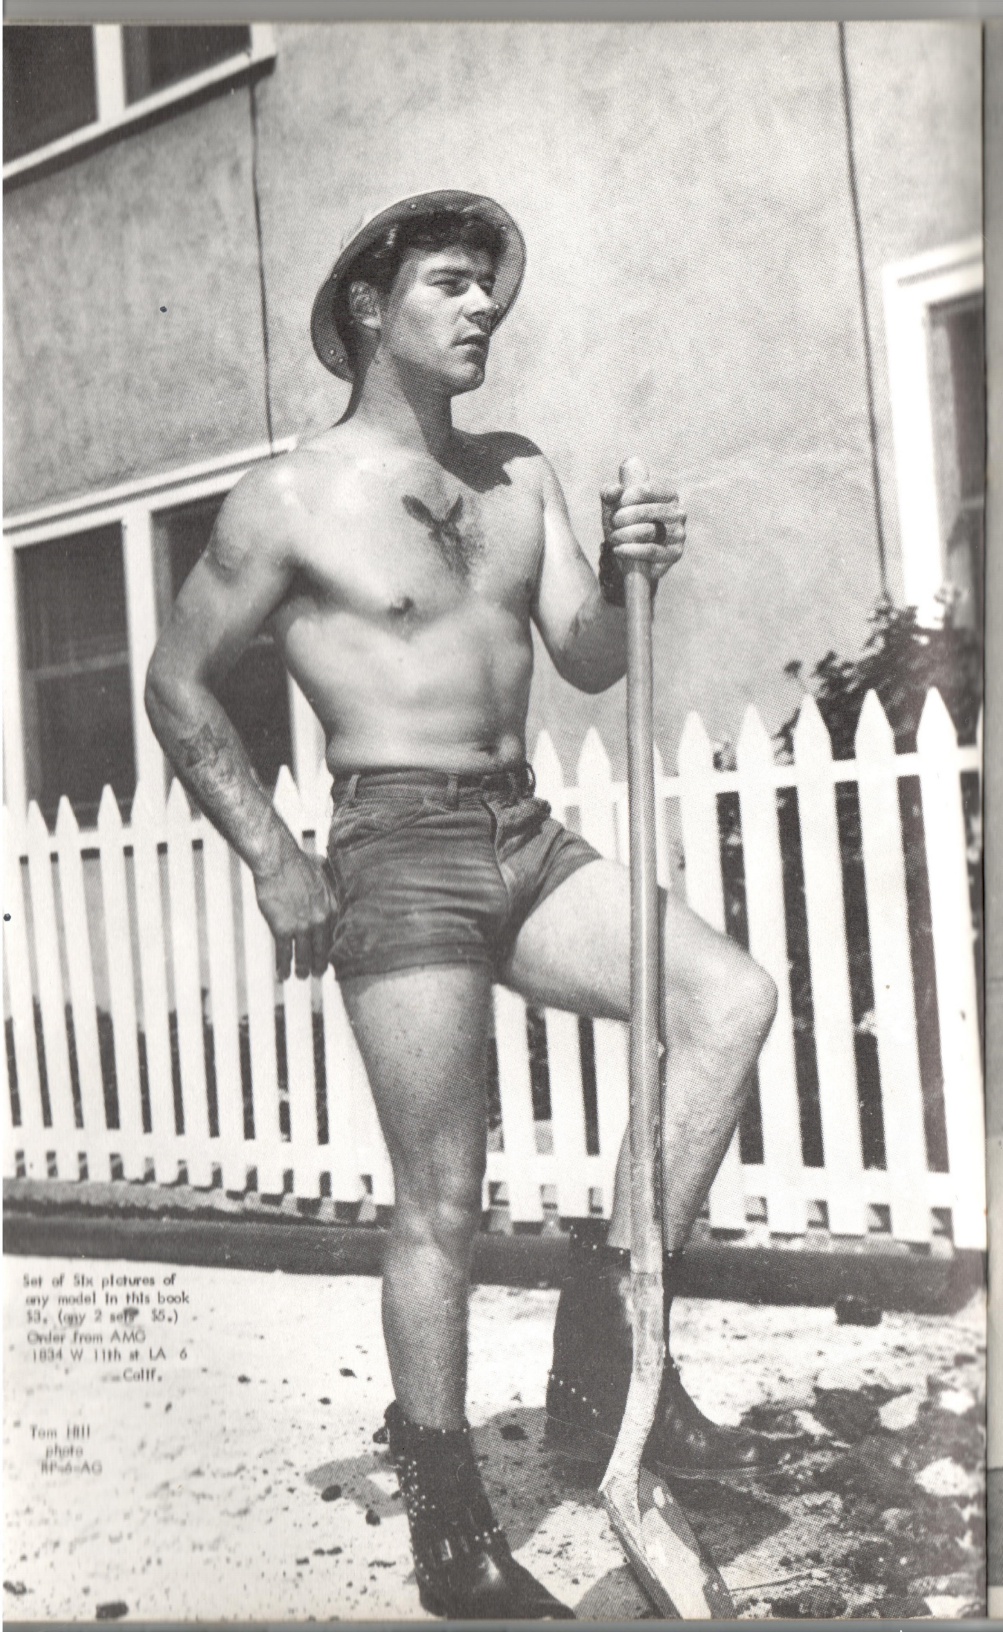
THE PICTURE THIEF

What makes a normally honest person turn into a sneak thief when he gets around some physique photographs? Almost everyone who has a collection of pictures has found that the quantity is constantly dwindling even though they may show the pictures to only their most "trusted friends".

At AMG where we have a collection of over 100,000 we have in the past been glad to let visitors "browse" thru the vast collection, even though they might intend to purchase only a few or none at all. All toooften the "thanks" we have received has been to have the display cards (from which our catalogs are made) stripped and mutilated by greedy people who could see no reason to purchase what they could steal.

Everytime we have relaxed our restrictions and reopened our files to the public we have soon come to regret it because the percentage of picture thieves is very high, and there seems to be no way to detect them in advance. When caught in the act, some hardly show embarrassment!



Set of 5 8x pictures of any model in this book $3. (any 2 sets $5.) Order from AMG 1834 W 11th st LA 6 Calif.

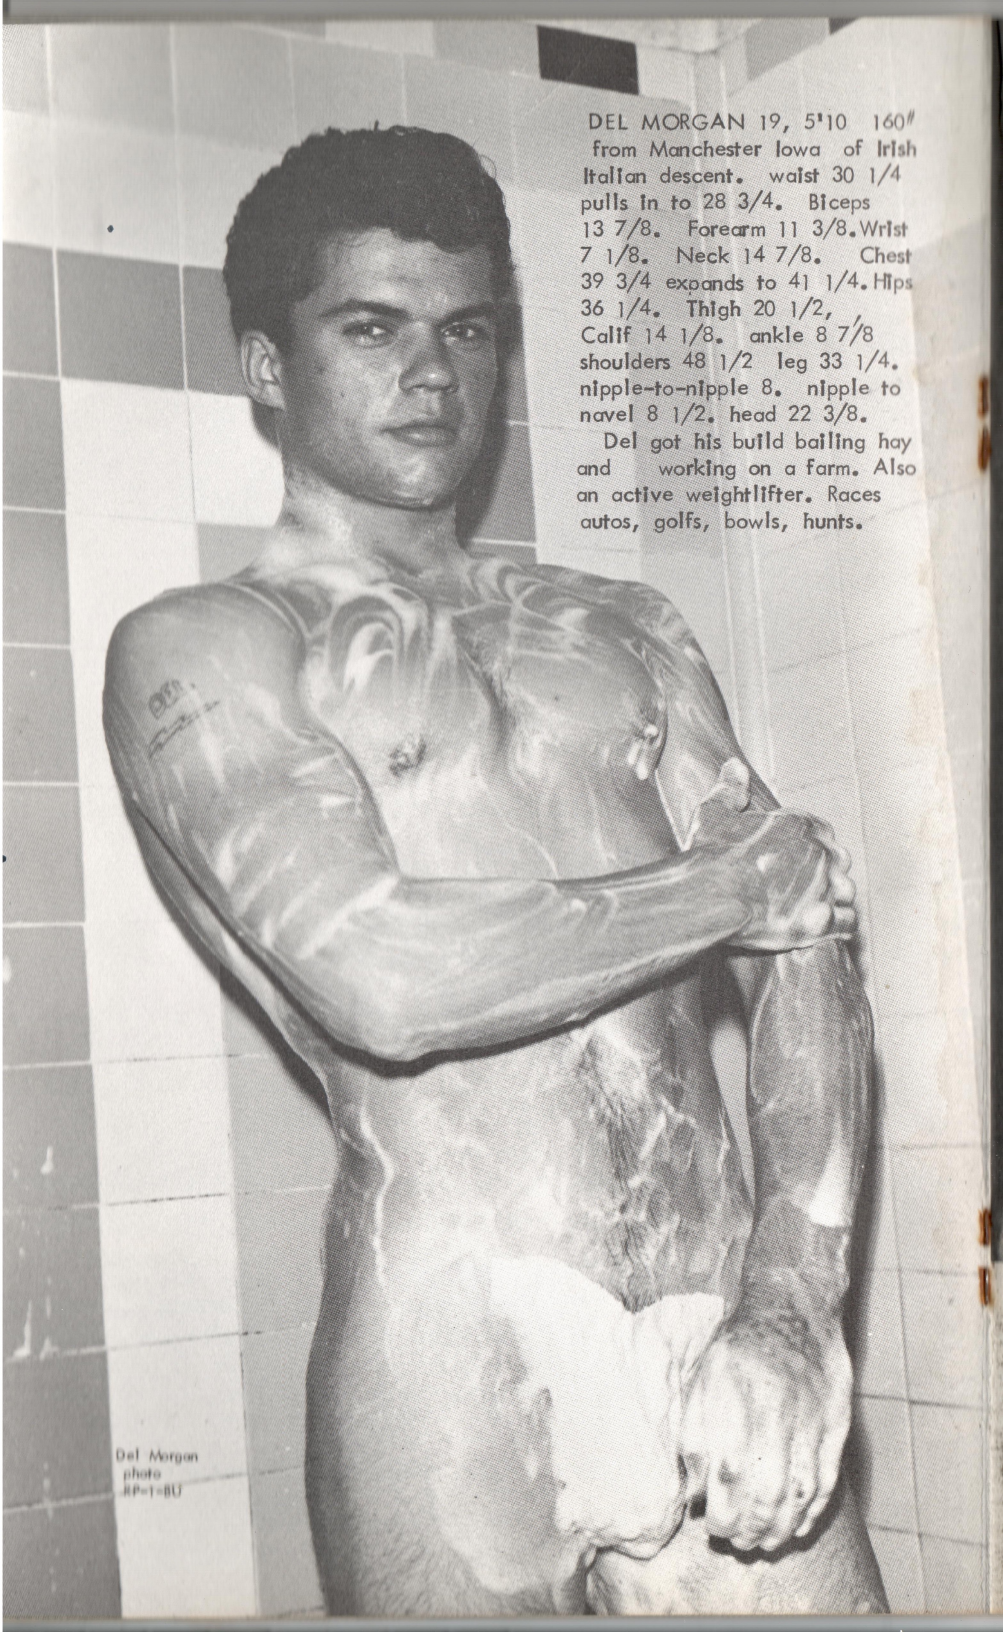
QUICK ENERGY

You may have noticed that AMG did a number of outdoor sessions with masses of athletes for Wyngate & Bevins (the work being evidenced in their Mr Sun from Vol 4 on, and Sun Trek, Natural Man etc.) The amount of work they want done on a sitting is prodigious and it is usually necessary to work at least five hours to come near to the quota. In the past we tended to break into the middle of such a long session with a picnic lunch. However, instead of being grateful we found the usual result was lethargy, sluggishness and near impossibility to get any good work after the lunch was eaten.

Our good friend Rheo H Blair (who sells the protein advertised in Iron Man) pointed out that simple cheese snacks and/or milk is far superior to try to build up quick energy levels and he especially cautioned against serving pop, candy or anything with sugar which gives a false lift followed by a letdown.



DEL MORGAN 19, 5'10 160# from Manchester Iowa of Irish Italian descent. waist 30 1/4 pulls in to 28 3/4. Biceps 13 7/8. Forearm 11 3/8. Wrist 7 1/8. Neck 14 7/8. Chest 39 3/4 expands to 41 1/4. ANOTHER WARNING ABOUT THOSE PEN-PAL CLUBS STARTING UP AGAIN !

In the past we have pointed up some of the salient dangers in being involved in the "find-a-buddy-by-mail" schemes. Certainly many times such exchanges of correspondence can be a fine, enriching experience but it can also be a most unhappy one. Do you really believe a club director or even a computer can pick out people worthwhile for you to know? All too often club members give completely phony information anyway and even furnish a picture of somebody else (or one taken 35 years ago). In any case, attempts by the government to stop such clubs have failed as well they should-- must we always be protected from ourselves by Big Brother? But we urge you to use personal caution!

Letters from Readers: WHY NO HARRY BUSH?

"I read your interesting magazine regularly but I certainly miss that outstanding physique artist, Harry Bush. Don't you intend to publish any more of his work?" I think he has a distinctive style-- I should love to take lessons from him."JK, L.A.

Editor's reply: We have been begging Harry Bush to prepare more work, but there have been many personal problems that have made it impossible to devote time to his drawing at present. Like the great George Quaintance he often finds it difficult to sit down to a specific task, but rather can work best only when inspired. Buy some of the work he has already done and give it to friends so we can give him more money--maybe this will help to inspire him !

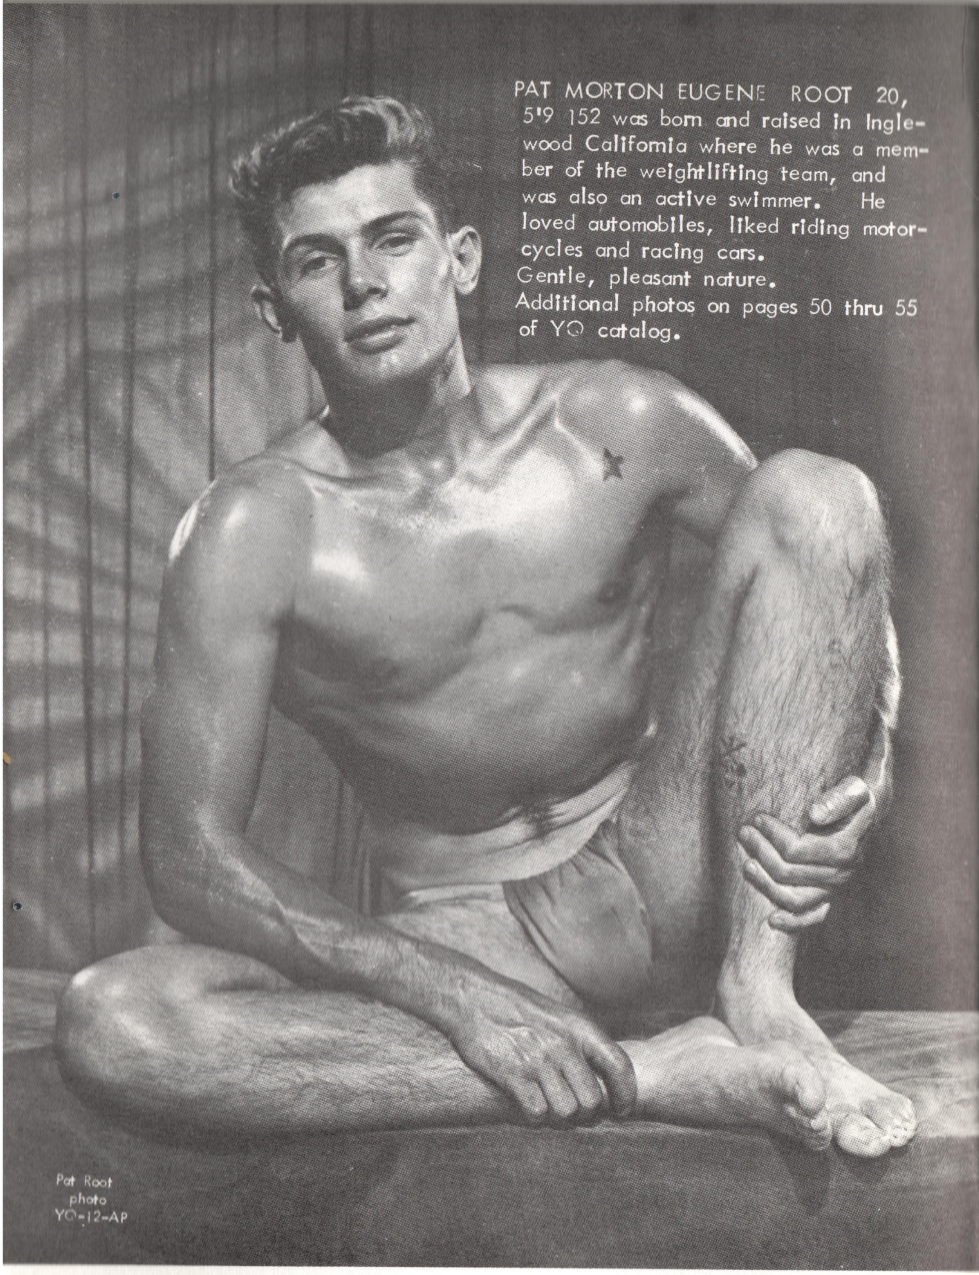
DONT FALL FOR THE "DIRTY PICTURE" MAIL PITCH!

Almost every photo collector in the United States has received a mimeographed circular from companies like "The Bentley Company" purporting to offer "adult" material for "open minded" people, listing films with such seductive titles as "Greekstyle, The Hustler, The International Set, Positive Suction" along with double-entendre descriptions. What the "sucker" gets for his hundred dollars is not even a decent physique film but rather highly repetitive movies in which the actors keep all their clothes on (possibly an unintended blessing). We know the man who ran this outfit and told him just how rotten a deal we thought he was pulling. He was prosecuted for fraud, but the government had to abandon the case. Caveat Emptor !



PAT MORTON EUGENE ROOT 20, 5'9 152 was born and raised in Inglewood California where he was a member of the weightlifting team, and was also an active swimmer. He loved automobiles, liked riding motorcycles and racing cars.
Gentle, pleasant nature.

PHYSIQUE PICTORIAL: FUTURE PLANS

For the present, no great changes are planned. Dealers have begged us to raise our price and in fact in many areas dealers add on an extra charge and no one seems to mind, but for the time being we will stay just the same. If we attempted to show full nudes in Physique Pictorial, there are many stands who would be unable to handle the book. Instead, we may bring out a supplemental publication (which will be announced in Pictorial).

At this writing, it is planned that Rudy, the former English editor of Der Kreis in Switzerland, will join our staff because Der Kreis is ceasing publication because of lingering illness of its publisher and supporting angel, Rolf.
